

# *Café Scientifique Orlando*

**Wednesday, July 2<sup>nd</sup> at 7pm  
at Stardust Video and Coffee  
1842 E Winter Park Rd, north of Corrine**

## **‘Phoenix on the Red Planet’**

NASA's and JPL's *Mars Phoenix Lander* only just arrived on Mars' north polar region at the end of May. Whatever it discovers will shape our ideas of extraterrestrial habitation for years to come.

Derek Demeter, Director of Seminole Community College Planetarium, will describe the goals, challenges, and successes of the newest NASA lander sent to the planet Mars.

***Visit [cafesciorl.com](http://cafesciorl.com) or text “follow cafesciorl” to 40404.***

**Every month, scientific experts and lay community meet in a cafe or bar to explore the latest scientific ideas and discoveries, using plain language. Admission is free, and you need no reservation to join us—just come ready to listen and offer opinions.**

**Café Scientifique started in England in 1998, and aims to demystify scientific research, inform, and engage the public with science, outside a traditional academic setting.**
